

# Container Catalogue

*We value lasting relationships on a global scale*

**ALMAR**

# Products

ALMAR specialises in the sale and lease of shipping containers. We have been operating in the industry for over 20 years and with a Head Office in Durban, South Africa and offices in Dubai, Brazil, India, Kenya and Angola, we are able to deliver on both a global and niche project basis.

## Container Leasing International

We offer Master Lease, Term Lease and Finance Lease options and specialised tailor-made one way leases to a wide variety of destinations in Africa, South America and the Middle East and Indian sub continent.

## Local

We offer Domestic Leasing in our main operational territories. When containers are used for local requirements, they are customs cleared and domesticated as required by the applicable governing authorities within the respective countries.

## Container Trading

We buy and sell containers globally. However, we do specialise in the African, South American, Middle East/Indian sub continent markets.

## New Build Procurement

We make ongoing purchases of new containers to upgrade our lease fleet and to meet trading demand. Due to our longstanding relationships with large container manufacturers, we are able to procure large batches of containers at very competitive rates as well as reposition them globally.

## Management of Investor Owner Container Fleets

We manage containers on behalf of numerous container Owners and because of our niche markets, we are able to offer above average returns.

## Dry Freight

	Interior Dimensions	Door Opening	Tare Weight	Cubic Capacity	Payload
	<b>40ft (12m) High Cube</b> L: 12,032m W: 2,352m H: 2,698m	W: 2,340m H: 2,585m	3,790kg 8,355lbs	76,4cbm 2,698cu ft	26,690kg 58,845lbs
